

Medical School Recommendation Letter

It is with great pleasure that I write this letter for Dr.XXX.

I have been practicing dentistry in the San Francisco Bay Area for about 20 years.

At XX Dental, we are committed to offering comprehensive dental care for the family in a comfortable, caring and supportive environment.

I am privileged to have known Dr. XXX for more than a year as an associate dentist at my practice.

I have had ample opportunity to observe her clinical developments, analytical skills and diagnostic ability. Dr. XXXhas a conscientious approach with a keen sense of responsibility towards her patients and profession. She can make astute observations and has a unique ability to handle challenging cases. Her profound interest in particularly pediatric dentistry was apparent from the beginning.

She has always shown eagerness to perform procedures in pediatrics within the scope of the general office.

Dr. XXX has demonstrated exceptionally outstanding management with our pediatric patients. She is patient, passionate about kids and has an amicable nature. I have observed her to be at ease and enjoying interaction with kids and families. Of the many dentists I have worked with, I find her to be more successful in convincing our pediatric patients build positive experiences which is vital to a lifetime of oral health care.

I have trusted her to take care of our patients independently in my absence. She is highly ethical and has established a wonderful rapport with our staff. During our discussions, she has shown to be flexible and open to constructive criticism .

I find in her positive traits and an apt blend of intelligence, a curiosity for learning, dedication and a passion to excel.

I strongly believe, with her composure, patience and love for children she will make an ideal candidate for the pediatric dentistry residency program. Hence, I highly recommend her to your esteemed program and personally expect her to learn and contribute the best to this specialty.
